

#70ADVENTURES

THE 70 ADVENTURES Before Grade 7 challenge is perfect for families, school classes and clubs. It's a fun way to explore cultural heritage and share thoughts about your hometown, nature, traditions and sustainable living. You can capture your adventures in photos or videos and share them with your group or online.

THE ACTIVITIES HELP grown-ups working with children to recognise and appreciate the full range and many sides of cultural heritage.

CULTURAL HERITAGE can be tangible like objects and buildings, intangible like festivals and traditions, digital like games and videos, or it can be natural environments. It's important that we preserve, refresh and pass on cultural heritage responsibly to future generations.
