

## Childhood in Snow Northern Identity

On the Youth's Snow Castles  
(History of the Nordic Peoples / Olaus Magnus Gothus 1555)

(In Finland 2040-2070)

Estimated Climate  
warming 2–7 degrees

(In Finland 2040-2070)

Yearly snow line climb  
up to Rovaniemi level

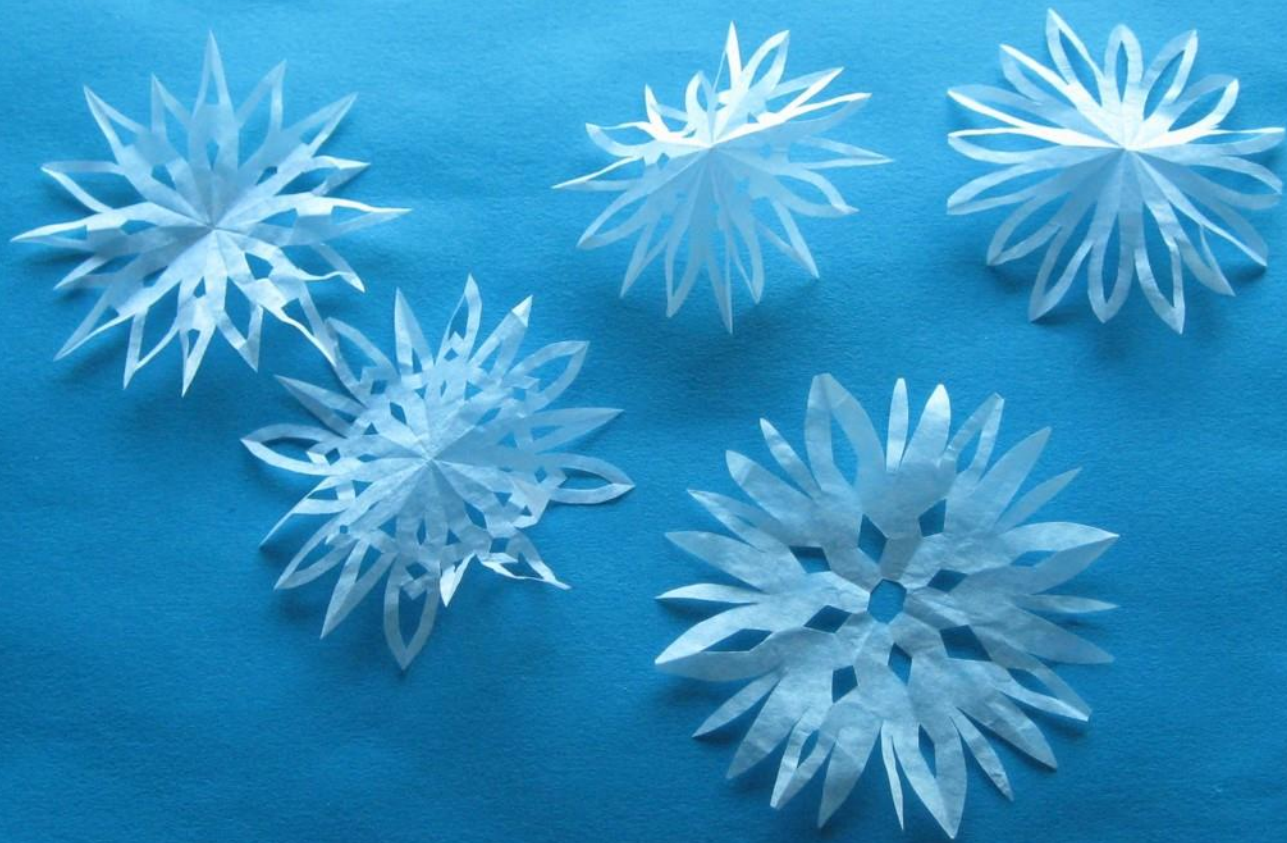

(In Finland 2040-2070)

Snow covered days  
diminish over 50%

If we aim the spot light on this positive and innocent ICH – Snow Games – we also point out the significance of winter and snow. So it is not only safeguarding the actual ICH but also raising awereness and safeguarding the key element of northern identity: access to snow.
