In 2018 the Land of Legends Sweden, was adopted to UNESCO's Register of Good Safeguarding Practices. We became one of twenty in the world. Being on the register means that you have an exceptionally good method on how to work with living cultural heritage

Our aim:

- **Cultural heritage - learning about one's history and local environment**
- **To develop the language, especially the oral language**
- **To meet the children's conceptual world**
- **Develop imagination and creativity**
